

Cross-Disciplinary Capacity Building in Space Weather

Show affiliations

Glover, Alexi; D'Amicis, Raffaella; Nandi, Dibyendu; Becker-Guedes, Fabio; Cherneva, Nina

Over the last 4 years, a series of Capacity Building Workshops in the cross-disciplinary subject of Space Weather has been initiated in the framework of COSPAR's Panel on Capacity Building. The first workshop took place in 2016 in Kamchatka, Russia led by IKIR RAS and the second will take place later in 2018 in Sao Jose dos Campos, Brazil led by INPE's Embrace Programme. This presentation will describe efforts undertaken to date in order to develop a format which combines scientific excellence with operational awareness and practices. Current experience will be presented along with possible future directions. Opportunities presented by increasingly available web technologies to reach a wider audience, while maintaining the integrity and quality of the courses themselves, will be discussed.

Publication:

42nd COSPAR Scientific Assembly. Held 14-22 July 2018, in Pasadena, California, USA, Abstract id. PCB.1-2-18.
